PART I. GENERAL PROVISIONS

§206E-1 Findings and purpose. The legislature finds that many areas of the State are substantially undeveloped, blighted, or economically depressed, and are or are potentially in need of renewal, renovation, or improvement to alleviate such conditions as dilapidation, deterioration, age, and other such factors or conditions which make such areas an economic or social liability.

The legislature further finds that there exists within the State vast, unmet community development needs. These include, but are not limited to, a lack of suitable affordable housing; insufficient commercial and industrial facilities for rent; residential areas which do not have facilities necessary for basic liveability, such as parks and open space; and areas which are planned for extensive land allocation to one, rather than mixed uses.

It is further determined that the lack of planning and coordination in such areas has given rise to these community development needs and that existing laws and public and private mechanisms have either proven incapable or inadequate to facilitate timely redevelopment and renewal.

The legislature finds that a new and comprehensive authority for community development must be created to join the strengths of private enterprise, public development and regulation into a new form capable of long-range planning and implementation of improved community development. The purpose of this chapter is to establish such a mechanism in the Hawaii community development authority, a public entity which shall determine community development programs and cooperate with private enterprise and the various components of federal, state, and county governments in bringing plans to fruition. For such areas designated as community development districts, the legislature believes that the planning and implementation program of the Hawaii community development authority will result in communities which serve the highest needs and aspirations of Hawaii's people.

The legislature finds that the creation of the Hawaii community development authority, the establishment of community development districts, and the issuance of bonds pursuant to this chapter to finance public facilities serve the public interest and are matters of

statewide concern. [L 1976, c 153, pt of §1; am L 1985, c 38, §1; am L 1993, c 311, §3]

(c) The authority shall notify the president of the senate and speaker of the house:

- (1) Of any public hearing upon posting of the hearing notice; and

§206E-6 District-wide improvement program. (a) The authority shall develop a district-wide improvement program to identify necessary district-wide public facilities within a community development district.

(b) Whenever the authority shall determine to undertake, or cause to be undertaken, any public facility as part of the district-wide improvement program, the cost of providing the public facilities shall be assessed against the real property in the community development district specially benefiting from such public facilities. The authority shall determine the areas of the community development district which will benefit from the public facilities to be undertaken and, if less than the entire community development district benefits, the authority may establish assessment areas within the community development district. The authority may issue and sell bonds in such amounts as may be authorized by the legislature to provide funds to finance such public facilities. The authority shall fix the assessments against real property specially benefited. All assessments made pursuant to this section shall be a statutory lien against each lot or parcel of land assessed from the date of the notice declaring the assessment until paid and such lien shall have priority over all other liens except the lien of property taxes. As between liens of assessments, the earlier lien shall be superior to the later lien.

(c) Bonds issued to provide funds to finance public facilities shall be secured solely by the real properties benefited or improved, the assessments thereon, or by the revenues derived from the program for which the bonds are issued, including reserve accounts and earnings thereon, insurance proceeds, and other revenues, or any combination thereof. The bonds may be additionally secured by the pledge or assignment of loans and other agreements or any note or other undertaking, obligation, or property held by the authority. Bonds issued pursuant to this section and the income therefrom shall be exempt from all state and county taxation, except transfer and estate taxes. The bonds shall be issued according and subject to the provisions of the rules adopted pursuant to this section.

(d) Any other law to the contrary notwithstanding, in assessing real property for public facilities, the authority shall assess the real property within an assessment area according to the special benefits conferred upon the real property by the public facilities. These methods may include assessment on a frontage basis or according to the area of real property within an assessment area or any other assessment method

which assesses the real property according to the special benefit conferred, or any combination thereof. No such assessment levied against real property specially benefited as provided by this chapter shall constitute a tax on real property within the meanings of any constitutional or statutory provisions.

(e) The authority shall adopt rules pursuant to chapter 91, and may amend the rules from time to time, providing for the method of undertaking and financing public facilities in an assessment area or an entire community development district. The rules adopted pursuant to this section shall include, but are not limited to, the following: methods by which the authority shall establish assessment areas; the method of assessment of real properties specially benefited; the costs to be borne by the authority, the county in which the public facilities are situated, and the property owners; the procedures before the authority relating to the creation of the assessment areas by the owners of real property therein, including provisions for petitions, bids, contracts, bonds, and notices; provisions relating to assessments; provisions relating to financing, such as bonds, revolving funds, advances from available funds, special funds for payment of bonds, payment of principal and interest, and sale and use of bonds; provisions relating to funds and refunding of outstanding debts; and provisions relating to limitations on time to sue, and other related provisions.

(f) Any provisions to the contrary notwithstanding, the authority may, in its discretion, enter into any agreement with the county in which the public facilities are located, to implement all or part of the purposes of this section.

(g) All sums collected under this section shall be deposited in the Hawaii community development revolving fund established by section 206E-16; except that notwithstanding section 206E-16, all moneys collected on account of assessments and interest thereon for any specific public facilities financed by the issuance of bonds shall be set apart in a separate special fund and applied solely to the payment of the principal and interest on these bonds, the cost of administering, operating, and maintaining the program, the establishment of reserves, and other purposes as may be authorized in the proceedings providing for the issuance of the bonds. If any surplus remains in any special fund after the

payment of the bonds chargeable against such fund, it shall be credited to and become a part of the Hawaii community development revolving fund. Moneys in the Hawaii community development revolving fund may be used to make up any deficiencies in the special fund.

(h) If the public facilities to be financed through bonds issued by the authority may be dedicated to the county in which the public facilities are to be located, the authority shall ensure that the public facilities are designed and constructed to meet county requirements.

(i) Notwithstanding any law to the contrary, whenever as part of a district-wide improvement program it becomes necessary to remove, relocate, replace, or reconstruct public utility facilities, the authority shall establish by rule the allocation of cost between the authority, the affected public utilities, and properties that may specially benefit from such improvement, if any. In determining the allocation of cost, the authority shall consider the cost allocation policies for improvement districts established by the county in which the removal, relocation, replacement, or reconstruction is to take place. Rules adopted under this section shall follow existing law, rules, ordinances, and regulations as closely as is consistent with standards meeting minimum requirements of good design, pleasant amenities, health, safety, and coordinated development. The authority may, in the community development plan or by a community development rule, provide that lands within a community development district shall not be developed beyond existing uses or that improvements

[§206E-8] Use of public lands; acquisition of state lands. (a) Any provision of chapter 171 to the contrary notwithstanding, the governor may set aside public lands located within community development districts to the authority for its use.

(b) If state lands under the control and management of other public agencies are required by the authority for its purposes, the agency having the control and management of those required lands shall, upon request by the authority and with the approval of the governor, convey, or lease such lands to the authority upon such terms and conditions as may be agreed to by the parties.

(c) Notwithstanding the foregoing, no public lands shall be set aside, conveyed, or leased to the authority as above provided if such setting aside, conveyance, or lease would impair any covenant between the State or any county or any department or board thereof and the holders of bonds issued by the State or such county, department, or board. [L 1976, c 153, pt of §1]

§206E-8.5 Developments within special management areas and shoreline setback. (a) Notwithstanding chapter 205A, all requests for developments within a special management area and shoreline setback variances for developments on any lands within a community development district, for which a community development plan has been developed and approved in accordance with section 206E-5, shall be submitted to and reviewed by the lead agency as defined in chapter 205A. In community development districts for which a community development plan has not been developed and approved in accordance with section 206E-5, parts II and III of chapter 205A shall continue to be administered by the applicable county authority until a community development plan for the district takes effect.

(b) In the review of such requests, the lead agency shall conform to the following, as deemed appropriate:

- (1) Applicable county rules adopted in accordance with section 205A-26 for the review of developments within a special management area,

except that paragraph (2)(C) of section 205A-26 shall not apply; and

- (2) Part III of chapter 205A and applicable county rules for the review of developments within the shoreline setback.

(c) With the approval of the lead agency, the developments may be allowed without a special management area permit or shoreline setback variance as required by chapter 205A. [L 1990, c 86, §§5, 18; am L 1999, c 35, §1; am L 2002, c 208, §2]

[\$206E-9] Acquisition of real property from a county. Notwithstanding the provision of any law or charter, any county, by resolution of its local governing body, may, without public auction, sealed bids, or public notice, sell, lease for a term not exceeding sixty-five years, grant or convey to the authority any real property owned by it which the authority certifies to be necessary for its purposes. The sale, lease, grant, or conveyance shall be made with or without consideration and upon such terms and conditions as may be agreed upon by the county and the authority. Certification shall be evidenced by a formal request from the authority. Before the sale, lease, grant, or conveyance may be made to the authority, a public hearing shall be held by the local governing body to consider the same. Notice of the hearing shall be published at least ten days before the date set for the hearing in such publication and in such manner as may be designated by such local governing body. [L 1976, c 153, pt of §1]

[\$206E-10] Condemnation of real property. The authority upon making a finding that it is necessary to acquire any real property for its immediate or future use for the purposes of this chapter, may acquire the property by condemnation pursuant to chapter 101, including property already devoted to a public use. - (4) Kakaako has a potential, if properly developed and improved, to become a planned new community in consonance with surrounding urban areas.

In coordinating community development in the Kakaako district, the authority shall plan a mixed-use district whereby industrial, commercial, residential, and public uses may coexist compatibly within the same area.

The authority shall plan for the above uses, but shall also respect and support the present function of Kakaako as a major economic center, providing significant employment in such areas as light industrial, wholesaling, service, and commercial activity. [L 1976, c 153, pt of §1]

PART IV. REVENUE BONDS FOR PUBLIC FACILITY PROJECTS

§206E-151 Findings and declarations. The legislature finds and declares that the health, safety, and general welfare of the people of the State require that every opportunity be taken to assist the redevelopment of community development districts; that the redevelopment and revitalization of these districts will alleviate community needs for employment, housing, parks, open space, and commercial and industrial facilities; that a significant deterrent to redevelopment is the cost of public facilities; that interest rates on moneys necessary to finance such public facilities add significantly to the cost of such facilities and that more favorable interest rates would be available through the issuance of tax-exempt bonds; and that the availability of revenue bonds to finance the cost of public facilities will facilitate redevelopment of community development districts.

The legislature further finds that the powers conferred, the issuance of revenue bonds, and the expenditure of public moneys under this part constitute a

serving of a valid public purpose, and that this enactment is in the public interest and is so declared as an express legislative determination. [L 1985, c 268, pt of §1; am L 1993, c 311, §5]

§206E-152 Definitions. The following words or terms as used in this part shall have the following meanings, unless a different meaning clearly appears from the context:

"Revenue bonds" means bonds, notes, or other evidence of indebtedness of the authority issued to finance any public facility under this part.

"Trustee" means a national or state bank or trust company within or without the State which enters into a trust indenture.

"Trust indenture" means an agreement by and between the authority and the trustee, which sets forth the duties of the trustee with respect to the revenue bonds, the security thereof, and other provisions as deemed necessary or convenient by the authority to secure the revenue bonds. [L 1985, c 268, pt of §1]

third sentence of section 39-68 to the director of finance to appoint the trustee or others, as fiscal agents, paying agents, and registrars for the revenue bonds or to authorize and empower the fiscal agents, paying agents, and registrars to perform the functions referred to in that paragraph and sections, it being the intent of this paragraph to confirm that the director of finance as aforesaid may elect not to serve as fiscal agent for the revenue bonds or may elect to limit the functions the director of finance shall perform as the fiscal agent, that the director of finance may deem necessary, advisable, or expedient;

- (7) The authority may sell the revenue bonds either at public or private sale;
- (8) If no trustee shall be appointed to collect, hold, and administer the revenues derived from the special facility for which the revenue bonds are issued, the revenues shall be held in a separate account in the treasury of the State, separate and apart from the Hawaii community development revolving fund, to be applied solely to the carrying out of the resolution, certificate, trust indenture, or trust agreement authorizing or securing the revenue bonds;
- (9) If the resolution, certificate, trust indenture, or trust agreement shall provide that no revenue bonds issued thereunder shall be valid or obligatory for any purpose unless certified or authenticated by the trustee for the holders of the revenue bonds, signatures of the officers of the State upon the bonds required by section 39-56 may be facsimiles of their signatures;

- (11) If the special facility lease shall require the other person to operate, maintain, and repair the special facility which is the subject of the lease, at the other person's expense, the requirement shall constitute compliance by the

authority with section 39-61(a)(2), and none of the revenues derived by the authority from the special facility shall be required to be applied to the purposes of section 39-62(2). Sections 39-62(4), 39-62(5), and 39-62(6) shall not be¹ apply to the revenues derived from a special facility lease. [L 2001, c 180, pt of §2]
