22. **'Imi na'auao** **education** *We believe in the horizon, our term for the future. From a small land mass in a tropical climate in the middle of the Pacific fresh thinking emerges. Given a profound influence of the immediate natural environment and longstanding cultural interaction within the Asia Pacific region we can tackle local issues as instructive for global concerns.*

6. Act 231: State Cultural Public market pretty much sums up economic possibility

27. Sustainability: After observing good ideas on sustainability (of natural resources) , that is why the Hawaii State Legislature supports a Keiki Fishing Conservancy in Kaka`ako Makai.

30. **Laulima** **cooperativeness** *Long range prudent development links social, environmental and economic measures. Island communities understand limited resources. Making do with less, but also sharing assets is familiar practice.*

31. Financial support for transformation of Kaka'ako Makai is a regional endeavor. Environmental benefits of open space and social return on public facilities should be reciprocal with the economic gain of private development.

33. Funding for Kaka`ako Makai shall include multiple sources or means = taxpayer, revenue from commercial entities (ex. Farmers Market)

71. Tourists drawn to Makai by park architecture-shop + play in Kewalo/Mauka area.

76. Educational and experiential–related business activity

31. Multi-modal transportation options shall be integrated into the area, including streets, transit, trails, pedestrian amenities, safe streets and transfer points.

36. Bikeways need to be practicable not just “bike route” signs. Need Diamondhead-Ewa bike lanes or shared use paths.
